*Live the Sea-Doo Life*

## What is the Sea-Doo Life?

**We're happy as a clam at high-tide you asked! It's simple, really.**

We like to think of it as a state of mind to level-up the every day. A cannonball off the diving board to disrupt the 'meh', if we may. It's bright like the sunshine and bold like the box jellyfish. To Live the Sea-Doo Life is to be friendly and free—it's a day at the beach, after all. And remember: it doesn't always have to make sense, it just has to be fun.

## There's no one way to Live the Sea-Doo Life.

For some, it's taking the pup out for an afternoon on the water down under. For others, it's going wild, ripping around a glacial pool in Norway. It's clear there's just one requirement to Live the Sea-Doo Life: **have fun!**

Show us how you Live the Sea-Doo Life using hashtag **#SeaDooLife**

*The Next Generation of Sea-Doo*

# Designed for life at sea

Redesigned for how you ride with more usable space, superior stability, easy-access storage and a sound system that sings. Stretch your legs, head into rougher waters, bring more snacks, and play louder tracks. This is your Sea-Doo Life, after all.

## *Sound? Check.*

*Integrated. Bluetooth. Waterproof.*

Ride to the beat of your own drum with the 100W BRP Audio-Premium System. With the swipe of a finger, create the vibe you want with the industry's first manufacturer-installed, truly waterproof, and fully integrated Bluetooth<sup>†</sup> audio system.

- ~ Two powerful 50-watt speakers for music clarity, even while riding.
- ~ Music will play even after engine is turned off.\*
- ~ A remote control pad on left speaker to quickly and easily change songs and volume.
- ~ You can also listen to music while riding on a SPARK with the BRP Audio-Portable System.

\*Up to one hour.

## *Stable at its Core*

*At Rest. At Speed. Always Steady.*

Sea-Doo offers the industry standard in stability. So whether you're parked in a cove, fishing or hauling at speed, these Sea-Doo models feel balanced and sure. Even with three on board or someone boarding, it'll stay true.

- ~ Redesigned hull and lower centre of gravity for improved stability and confidence at high and low speeds with or without passengers.
- ~ Hull is wider for improved stability at rest or boarding.

Some products may not be available or homologated in your region. Contact your dealer for more information

## *Space to Sprawl Out*

*Configurable. Comfortable. Groundbreaking.*

With comfy, modular 3-up seating, and a useful and large swim platform, the newest design makes hanging out just as fun as riding around.

- ~ Large, flat swim platform to prep for fun or kick back for hours.
- ~ Modular removable seating is configurable for hanging out, sunbathing or a face-to-face picnic.

## Smarter Storage Space

*Useful. Accessible. Functional.*

All your gear is now within arm's reach. The industry's first direct-access front storage opens by simply raising the handlebar assembly\*. No standing required. And extra rear storage is also possible with the secure Quick-Attach LinQ™ System.

- ~ Exclusive LinQ System lets you quickly and easily attach a fuel caddy, a bag, a cooler and more. Plus it can now be added to all the other models.
- ~ Large front storage is completely accessible from a seated position\*.
- ~ Glovebox features a waterproof, shockproof phone compartment with USB charger.\*\*

\*Only on certain models.

\*\* USB Port available as an accessory. Standard on GTX Limited model.

iBR® (Intelligent Brake & Reverse)\*,  
exclusive coloration

**NEW** Lava Red & Deep Black Quetzal & Manta Green

\*Speak to your local dealer to identify which features come standard and as an option.

*Technology*

# Innovative Technology

Innovative Technology / 14

## 1 Ergolock

The narrow, race-inspired seat and deep knee pockets let you lock in and use your legs for better control, reducing upper body fatigue and making you feel like one with the machine.

## 2 Intelligent Brake and Reverse (iBR)

In partnership with Surf Life Saving Australia and recognised by the U.S Coast Guard for improving boat safety since 2009 and now in its third generation, the industry's first Sea-Doo exclusive iBR system allows you to stop up to 160 feet (48 m)\* sooner than watercraft not using a brake. With both hands on the handlebars, riders can engage forward, neutral, and reverse for stable, worry-free maneuvering at low speeds.

\* Based on BRP internal testing.

## 3 Closed-Loop Cooling System

Another Sea-Doo exclusive, the Closed-Loop Cooling System (CLCS) uses coolant to keep the engine running at ideal temperatures. Unlike competitors, this technology prevents corrosive salt water and damaging debris from entering the engine, for increased reliability, longevity and peace of mind. Offered as an expensive upgrade on traditional marine inboard engines, CLCS comes standard on all Sea-Doo models.

#### 4 *Polytec*

This innovative and robust material reduces the weight of the watercraft to deliver peak performance and efficiency, and makes it easy to tow with small cars. Plus, the colour-in-molding is more scratch-resistant than fiberglass.

#### *Rotax Marine Engines*

With unmatched high performance, superior fuel efficiency and proven reliability, Rotax marine engines continue to set the standard in the industry. Now every Sea-Doo engine features Advanced Combustion Efficiency (ACE) technology which optimizes the engine to deliver peak performance and impressive fuel efficiency.

#### 5 *Different Driving Modes*

- ~ ECO MODE: This exclusive Sea-Doo feature produces up to 46% improved fuel efficiency by automatically determining the most economical power delivery.
- ~ SPEED REGULATOR MODE: Set it and forget it. This activity-specific mode lets you set your speed for cruising, tow sports, navigating no-wake zones and more.
- ~ SPORT MODE: The most responsive mode that gives you the top performance from your watercraft.
- ~ SKI MODE: Tow the perfect line, every time. The five different acceleration profiles make it easy for the driver to deliver a smooth launch and maintain a consistent pace, increasing predictability, so boarders can focus on shredding.

#### 6 *Intelligent Debris Free Pump System (iDF)*

Ingenious new iDF system allows riders to clear clogged intakes without getting wet with the push of a button while maximising valuable ride time.

#### 7 *7.8" Full Colour LCD Display*

Stunning colours and crystal clear display shows vehicle data and pairs with compatible phone apps via BRP Connect to show maps, weather and more on your dash. And take full advantage of improved sound quality and intuitive speed-sensitive volume control.

BRP reserves the right at any time to discontinue or change specifications, prices, designs, features, models or equipment without incurring obligation. Watercraft performance may vary depending on, among other things, general conditions, ambient temperature, and altitude, riding ability and rider/passenger weight. Testing of competitive models done under identical conditions. Performance number achieved under optimal testing conditions. Some models shown may depict optional accessories. Some pictures depicted in this brochure include professional riders and wakeboarders executing maneuvers under ideal and/or controlled conditions. Do not attempt any of these, or any other risky maneuvers, if they're beyond your level of riding or wakeboarding ability, as well as your understanding and respect for the performance of your personal watercraft. Always consult an authorized Sea-Doo dealer when selecting a watercraft for your particular needs, and carefully read and pay attention to your Operator's Guide, Instructional Video, and the on-product labeling on your personal watercraft. Always drive responsibly and safely. Severe injury can result from ignoring warnings, not following the instructions or improper use of watercraft and related products. Use common sense and courtesy. Always observe applicable local laws and regulations. Respect the rights of, and keep a safe distance from, other recreationists and/or bystanders. Always wear the appropriate protective clothing, including a Coast Guard-approved life vest as dictated by the circumstances including, but not limited to, the weather, boating conditions and age and abilities of the occupants. Don't operate your watercraft under the influence of drugs or alcohol. Always observe applicable laws and regulations.

Visit an authorized Sea-Doo dealer for details. By being a member of these important industry associations, we recognize and support their efforts in sharing the responsibility of promoting the growth of our sport. Sea-Doo watercraft riders know that riding responsibly and safely is always more fun.
